**CONFIRMATION OF SUBSCRIPTION BY CHARGING MY ST5DEMO04**

Verifying the following information and confirm payment.

Licence System License Atlas Copper

Number of units 1

Cost 60 USD / Month

Payment account ST5DEMO04

Remember that once you have subscribed, you will need to activate the system or systems manually in the corresponding system page.

You are purchasing a recurring monthly subscription to the systems indicated above, which will be charged to your Daniels Trading account ST5DEMO04.

Please note that this does not activate the system for trading, which must be done on the system (s) individual performance page or system(s) site. At the end of each new month, the system will be charged to the system (s) individual performance page or system(s) site.

**All actions** made by the client **require a confirmation**

**This cost is deducted** from the clients account at the **beginning of each month**, for trading that month, & **prorated in the 1st month activated**

# Activating the system

Once client has the license rights to a system, **the next step is to activate** the system for their account

Set **how many contracts** should be traded per signal

Activation mode:

Immediately Activation

Immediate if better  
On Next Signal  
On Next Session

Clients can **choose** different activation options depending on whether the system **is currently in a trade** and where the market is in relation to its **latest entry price**

**ACTIVATION CONFIRMATION**  
You are activating the following system on your account

System name: Alpha Gold  
System type: Swing on CL future. Max Open Position: 1  
Current Position: Short 1 @ 1294.6 (last updated 06/08/2017 08:29:00 15)  
Account: INNOVTP03  
Released margin: 6400 USD  
Multiplier: 1  
Activation mode: Immediate Activation

You are about to activate the system Alpha Gold in your Daniels Trading account number INNOVTP03. The number of contracts traded on all signals will be multiplied by your chosen multiplier. For example, if your chosen system trades 2 contracts per signal and you have chosen a multiplier of 4, then 8 contracts (2\*4) will be executed on the next signal.

## Risk Control

1

Accounts need at least the 'Required Minimum' in their account to activate a system

2

Balances are synced with FCM each day, then updated in real-time based on system P/L

The screenshot shows the Daniels Trading iSystems platform. At the top, there's a navigation bar with 'Log in', 'Sign up today!', and 'EXPLORE SYSTEMS'. Below this, a progress bar shows four steps: 1. EXPLORE CHOOSE SYSTEMS, 2. SUBSCRIBE OR FREE LICENSE, 3. ACTIVATE ON ACCOUNT, and 4. MONITOR PERFORMANCE. The main content area displays a table of trading systems. The table has columns for 'SYSTEM', 'MARKET TRADED', and 'REQUIRED CAPITAL'. The 'REQUIRED CAPITAL' column is circled in yellow. The table lists several systems: Golden Age (GC7, \$5,800), MagicPatterns Crude 15' (CL, \$1,800), IRU FDAX (FDAX, \$6,700), Bayona Mini nasdaq 2 (NQ, \$1,700), and YM (\$4,800). Each system has a star icon and a lock icon. A dotted line connects the 'REQUIRED CAPITAL' column to the text in step 2.

SYSTEM	MARKET TRADED	REQUIRED CAPITAL
Golden Age	GC7	\$5,800
MagicPatterns Crude 15'	CL	\$1,800
IRU FDAX	FDAX	\$6,700
Bayona Mini nasdaq 2	NQ	\$1,700
	YM	\$4,800

3

Platform automatically de-activates a system when the balance falls below the required minimum, notifying client & broker

4

FCM & CQG risk protocols remain in place as a fail safe

System Type	Intraday
Multiplier	1
Deactivation Mode	Stop Immediately
Balance before de-activation	-53 USD
Margin released	2900
Ticket #	178890

This system was selected for deactivation following the risk control procedure specified at the time of activation, and included in the iSystems (by TradingMotion) User Agreement:

"At the start of each trading session, we will verify if your account balance covers all the required minimums for your chosen system(s). If the balance is below what is required, the platform will automatically deactivate systems until the balance meets the required minimum. The priority for systems being deactivated will be those systems with no open positions first, sorted by most recently activated to least recently activated (longest active), and then those systems with open positions, sorted in the same manner."

You may re-activate this system at <https://dt.isystems.com>, after either adding funds to your account and/or de-activating other systems currently active for your account.
